## The word of the Rector

Universidade Estadual do Norte do Paraná (UENP) is one of the newest Brazilian universities, but rooted in the stories and the result of the integration of five traditional Faculties with more than 40 years of experience and excellence in teaching, research and extension. Located in the northern region of Paraná State, the Institution was born with the responsibility of promoting the development of its region and so contribute to the growth of the State and of Brazil.

In this natural course of expansion of its borders, UENP has become an important partner in conducting cutting-edge research, which highlights itself with merits to become, in short, reference in all areas in which it operates. For glimpsing forth paths for the University in the field of research, the current administration of UENP has worked with high quality and perfection to the internationalization process of the institution

Conducted by International Relations Coordination (CRI), the internationalization of UENP seeks to project the Institution so that it reaches new horizons in the academic world. Understanding the relevance of the process, as well as the challenges that still exist in relation to the University internationalization in Brazil, UENP has sought its own solutions to ease the way for students and researchers who arrive or leave the University for Exchange.

With the support of funding institutions like Capes, CNPq, Fundação Araucaria, Santander, State and Federal Government, the University has sought to further expand access to scholarships for researchers, professors and staff who participate in exchange programs. UENP has partners in South America, Europe and Asia and participates as an associated institution in programs and actions that have ensured the flexibility in the process of internationalization.

## INTERNATIONAL AFFAIRS

Together with the development of an internationalization policy, the University makes available to its students opportunities for immersion in other cultures of the world, becoming a Free Institution of Higher Education without borders.

The University has partners in Argentina, South Korea, Spain and Portugal. It is an associated University in Erasmus Mundus Project EBW +, integrates Zicosur University network, Coimbra Group of Brazilian Universities and has an agreement with the network of university cooperation called Universia, which covers 23 Ibero-American countries.

UENP also takes part in Science without Borders program, from the Federal Government, promoting student mobility for several countries such as Australia, Canada, Spain, United States, Ireland, Italy and Portugal. UENP has also articulated cultural activities, scientific and technological cooperation with foreign institutions, supporting the international exchange of teachers.

# GRADUATION PROGRAM IN LEGAL SCIENCE

The Graduation Program in Legal Sciences (Master and Doctorate) of UENP carries out oriented research on Theories of Justice: Justice and Exclusion and has two research lines: State and Responsibility - Critical Issues and Political Function of the Law. Having as a main focus the interdisciplinary study of the Social Exclusion, the Program seeks to stimulate the critical capacity to perceive the failures and distortions of the mechanisms of Justice activation and their corresponding formal devices, in order to conceive and introduce for cutouts, loopholes in dogmatic rigidity, sustained in the supremacy of the human dignity principle.

The historical mission of the Graduation is linked to the regional context. The themes linked to the research about Theories of Justice: Justice and Exclusion enable the development of projects that can collaborate for both deeper understanding and the integrated regional damages, besides contributing to the articulation of actions able to interfere positively in their social dynamics. The studies, still, are not linked only to the elaboration of regional micro analysis absolutely transcending the mesoregional interest.

## **DOUBLE DEGREE**

The Doctorate Program in Legal Science of UENP has a Joint Degree agreement with the University of Murcia, Spain. The special system guarantees the student from both Universities, when participating in an academic exchange for a minimum of nine months, the doctorate degree with validity in Brazil and throughout the European Union.

**Doctorate / 5 vacancies**

**Master / 20 vacancies**

**02 vacancies** (for foreign students)

# RESEARCH LINES

## ***I. State and Responsibility: Critical Issues***

This research line promotes the historical research of the Theories of the State, giving priority to the defense of the democratic system as a fundamental rule of the preservation of the human person values, structured in the State-Society relationship, away from the strict legalism must provide the adequacy of law to social contexts to which it is intended. Within this line, some issues can be studied such as responsibility of the State, crisis of State Responsibility, effectiveness of Human Rights, minimum State and the Welfare State, among others

## ***II. Political Function of the Law***

Considering that law and politics are not in opposition, this research line emerges from the concern about the hierarchical chain of Human Rights, from which leads to linking with topics such as Democracy and Distributive Justice, Human Rights and Democracy; Social Dimension of Law, Criminology, among others. This research line is also structured from three fundamental axes: a) Criminology; b) Democracy; c) Education and Civil Society.

# CULTURE

UENP understands Culture, heritage of values and objects, as an essential principle to human and professional education of its students. Because of this, it works to consolidate a cultural policy to guarantee this right to the ones who are inside and outside the University. The institution organizes and coordinates cultural events such as festivals, exhibitions, shows, presentations, and supports integration and mobilization by means of activities designed to the partnership between the University and the community sectors. Among several cultural activities, it is highlighted Jacarezinho Theater Exhibition called EnCena, Short Film Itinerant Festivals, the Week of Cultural Diversity and artistic-cultural workshops cycle, activities that reach the three campuses of the University, by means of partnership with other institutions.

# EXTENSION

UENP, through its extension actions, fulfills its social commitment contributing to regional development and acting in the production of scientific knowledge in its different forms. The investment made in extension allows UENP students to be in contact with several realities, making them protagonists in the construction of a better society, activity that contributes for the professional development and personal growth. Nowadays, there are 63 projects and 7 extension programs developed at UENP campuses. Many of the extension programs occur in partnership with the State and Federal governments: University Extension Program (PROEXT); University Without Borders (USF) and its sub-programs as Parana Good Business (PBNP), Municipal Office of Jacarezinho and Center for the Study and Defense of Children and Youth's rights (NEDDIJ); Rondon Project; Institutional Program of Initial Extension Scholarship (PIBEX); Program of Tutorial Education (PET); Program for Education Development (PDE); besides special programs as Language and Literature in Action; Nucleus for Agroecology and Territories (NEAT); Continued Education for Guardianship Councilors.
