

## ***Mitacs Globalink Research Internships***

Você está interessado em desenvolver sua pesquisa com os melhores professores e explorar seu campo de estudo no Canadá?

Gostaria que seu currículo incluísse pesquisa, habilidades profissionais e experiência internacional?

***A Mitacs Globalink Research Internships pode te fornecer uma experiência profissional como nenhuma outra!***

# O que é *Mitacs*?

- ✓ *Mitacs* é uma organização nacional não lucrativa que efetua pesquisas e programas de treinamento no Canadá há mais de 15 anos.
- ✓ A organização trabalha com 60 universidades, diversas companhias e também com o governo canadense, buscando parcerias para a inovação social e industrial do país.
- ✓ Entre as diversas oportunidades que oferece, destacamos o **GLOBALINK RESEARCH INTERNSHIP**

## *Globalink Research Internships*

- ✓ Contitui-se de iniciativa competitiva para alunos da Austrália, Brasil, China, França, Índia, Alemanha, México, Arábia Saudita, Tunísia e Ucrânia.

### **A oportunidade:**

- ✓ Todo ano, entre maio e setembro, a *Globalink Research Internships* seleciona um restrito grupo de estudantes estrangeiros para desenvolverem suas pesquisas nas melhores universidades do país.
- ✓ Os candidatos mais bem colocados participam de um programa de estágio e pesquisa com duração de 12 semanas sob a supervisão de membros de universidades canadenses de diversas disciplinas acadêmicas, desde engenharia e matemática até ciências humanas e sociais.

<https://www.youtube.com/watch?v=Qe7JfEz1ny0>

## As atividades:

- ✓ Durante o estágio, os estudantes participam de projetos de pesquisa sob a supervisão de conceituados membros de faculdades, trabalham com outros estudantes de graduação e associados da pesquisa e, ainda, experienciam oportunidades educacionais, sociais e recreativas únicas que o Canadá tem a oferecer.
- ✓ Este programa está atualmente disponível para **mais de 45 universidades** por todo o Canadá.

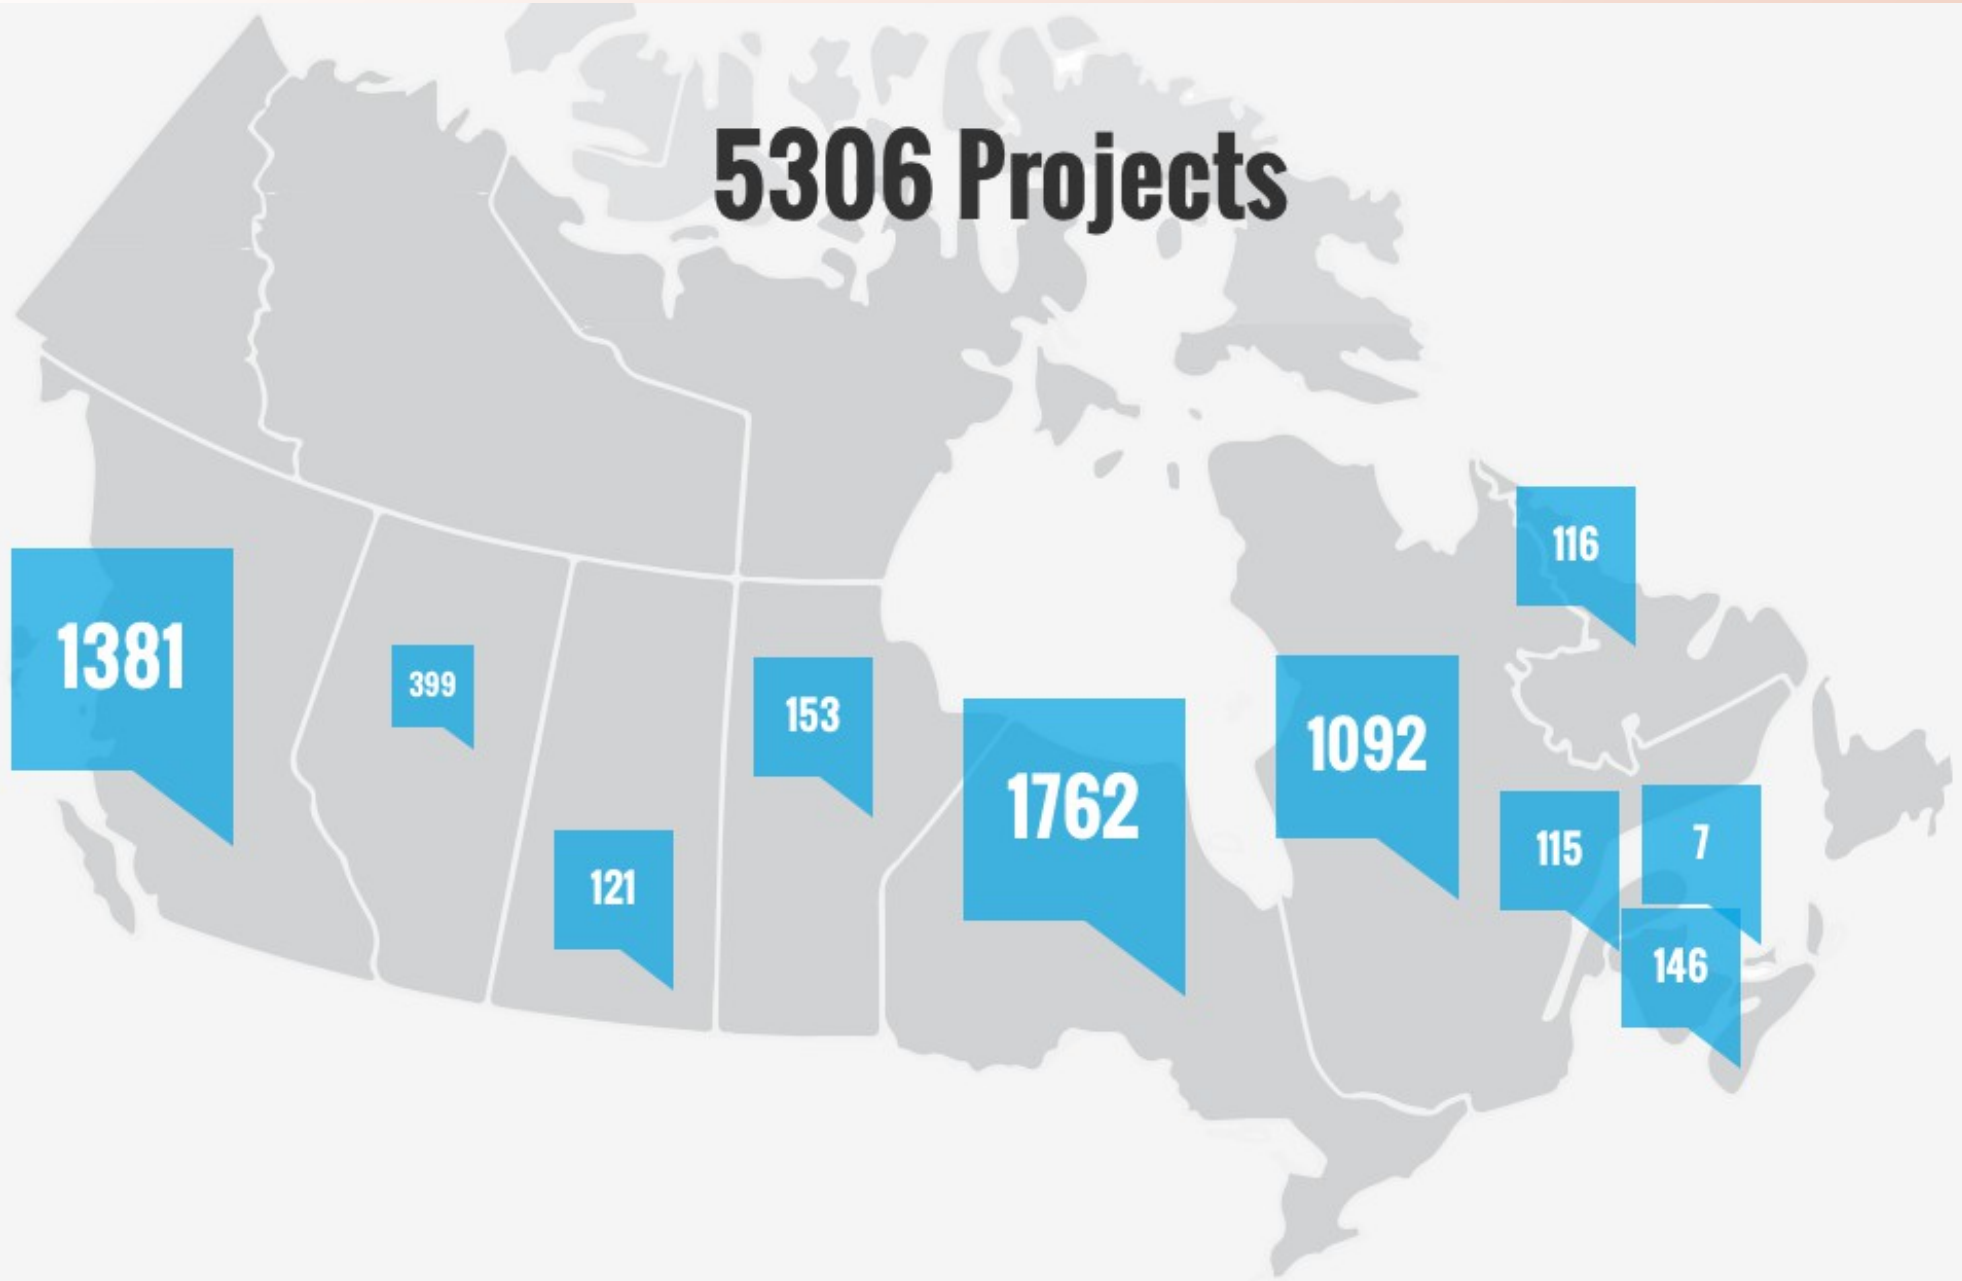

## A inscrição:

- ✓ Ao candidatarem-se, os estudantes devem selecionar entre **três a sete projetos, de pelo menos três províncias canadenses diferentes.**

# 5306 Projects

# Requisitos para candidatura dos estudantes:

- ✓ Ter, pelo menos, 18 anos de idade;
- ✓ Estar matriculado e dedicar-se integralmente à universidade;
- ✓ Ter no mínimo um semestre ou no máximo três semestres restantes em seu programa em setembro de 2018;
- ✓ Ter nota média de, no mínimo, 8 e também pontuação do ENEM de, no mínimo, 600 pontos, sendo válido, para tanto, o exame de 2009 para frente.
- ✓ Estar disponível para as 12 semanas de estágio do programa – considerando a ida entre 01 de maio e 30 de junho de 2018 e o retorno entre 31 de julho e 30 de setembro de 2018.
- ✓ Possuir um passaporte válido até, pelo menos, janeiro de 2019.

# Documentos necessários para a candidatura:

- ✓ Pelo menos uma carta de referência de professor ou supervisor de pesquisa, conforme instruções;
- ✓ *Curriculum Vitae (modelo)* detalhando sua experiência em pesquisas;
- ✓ Transcrições acadêmicas oficiais de sua universidade (em inglês ou francês);
- ✓ Exame de proficiência em inglês e uma cópia do certificado do exame;
- ✓ Confirmar se seu passaporte é válido até janeiro de 2019 – o que deverá ser apresentado caso a candidatura seja aprovada.

## Na candidatura, também haverá questionamentos sobre:

- ✓ Sua disciplina acadêmica e no programa, dentre outras informações educacionais;
- ✓ Seus interesses, habilidades e conquistas na área de pesquisa;
- ✓ Suas razões para desejar efetuar pesquisas no Canadá.

# O passo a passo

---

- ✓ Acesse a página do programa:
- ✓ <https://www.mitacs.ca/en/programs/globalink/globalink-research-internship>

## Certifique-se de que é elegível e providencie toda a documentação exigida:

---

- ✓ Histórico acadêmico oficial – respectiva tradução juramentada;
- ✓ **Carta de referência** feita por um professor pesquisador ou supervisor;
- ✓ **CV** que registre as experiências de pesquisa segundo modelo solicitado;
- ✓ Exame de proficiência.

### Globalink Research Internships - Student Platform

Welcome

Welcome to the 2018 Globalink Student Application Platform!

- Provide an official transcript from your home university. Note that if your transcript is not in English or French, you must submit a translated and notarized copy before the application deadline. Your transcript(s) should be provided in the language(s) of the projects you are applying to.
- Applicants must be available to complete at least 12 consecutive weeks of internship.
- Arrival dates must be between May 1st and June 30th.
- Must be fluent in the oral and written language of the project (English and/or French).
- Must complete your application by **September 18, 2017 at 4:00 PM Pacific Daylight Time**.
- Possess a passport from your home country that is valid at least until January 2019.
- Provide at least one letter of reference from an academic research professor or supervisor. Guidelines for letters of reference can be found [here](#).
- Provide a CV that details your research experience. A template for your CV can be found [here](#).
- Consent to the 2018 Globalink Research Internship Terms and Conditions.
- Be at least 18 years of age at the time of application.
- Apply to a minimum of 3, maximum of 7 projects in the Globalink Research Internship project tab of the application and ensure your selections are from at least 3 different Canadian provinces.

Use the navigation bar at the top to switch languages. Questions? Contact the Mitacs Helpdesk at <http://helpdesk.mitacs.ca> or [helpdesk@mitacs.ca](mailto:helpdesk@mitacs.ca)

### Chemistry and Biochemistry of molecular modulators of epigenetic pathways — gateways to new cancer therapeutics (1)

The proteins and pathways that control gene (mis)regulation at the heart of cancer in the nucleus of a cell are increasingly well understood. One of the most poorly understood molecular events within these signaling pathways is the formation of complexes between histones (DNA packing proteins that encode gene regulatory signals) and their partners,

## 1) Descrição do projeto

**Tweeting realities: The study of international partnerships through digital methods**

**FACULTY SUPERVISOR:** Melody Viczko

**SPECIALIZATION:** I work in the area of educational policy analysis. I use a critical approach to policy analysis that looks at how actors work together on policy. My recent research involves an innovative approach in policy research that uses digital methods to examine the actors involved in internationalization of higher education. Specifically, the digital method approach helps us to look at how actors connect through digital platforms and to explore the involvement of actors that we might not otherwise know are involved in partnership through more traditional approaches to policy research.

**Project Description** | [Student Roles](#) | [Required Skills](#) | [Additional Information](#) | [Additional Comment](#)

This project looks at how organizations connect with each other through digital media to form partnerships related to internationalization of universities. Mainly, we're interested to see how different organizations connect with each through Twitter and through their organization websites, as one means of studying international partnerships. In the Summer of 2018, we will have collected a year's worth of data through two different digital tools: an issue crawler and a Twitter tool. We will be looking to understand the networks of organizations that are connecting around internationalization. This work is informed by policy network analysis drawing on sociomaterial approaches to research, particularly Actor Network Theory.

The research team is led by the Principal Investigator, a researcher with a background in critical education policy studies and higher education at Western University. The co-investigator is a researcher at the University of Alberta, Faculty of Education, with expertise in global citizenship education and education policy.

Project Description

Student Roles

Required Skills

Additional Information

Additional Comment

We're looking for a student to work with a team of researchers from Western University and the University of Alberta on the analysis of digital data, examining the links and partnerships that are formed through digital activity. Specifically, the student will work with us using data collected by two tools: an issue crawler that conducts co-link analysis and a Twitter tool that tracks links between handles and hashtags. The intern will help with interpreting the digital data, working with the issue crawler and Twitter tool to refine the data analysis and design new digital platforms in collaboration with the researchers based on findings. An exciting part of this project is that the intern will work collaboratively with a partner researcher at the Interdisciplinary Centre for Research in Curriculum as Social Practice, Dr. Kathy Hibbert and a digital humanities lab collaborator on the creation of other projects that emerge from the analysis. The student will work with the team on conceptualizing new research projects related to the findings and designing digital platforms to collect data related to future work.
